

Trading remotely with Assent, whether in live production mode, or simulated mode requires just a few simple, up front steps that we've outlined below. The first important step calls for the installation of special software that secures the remote connection that will be established between your computer and our firewalls.

Step 1: In order to install the F5 VPN Client please click on the following link:
<http://downloads.assent.com/vpn/index.html>

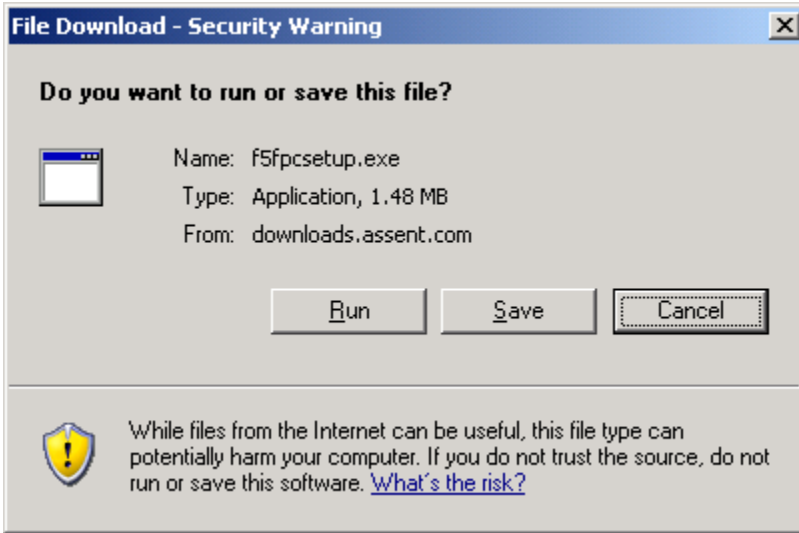

Step 2: Click on the second link shown (F5 VPN Setup) as per below:

For technical assistance, you may e-mail the Assent Remote Trader Support Group at:

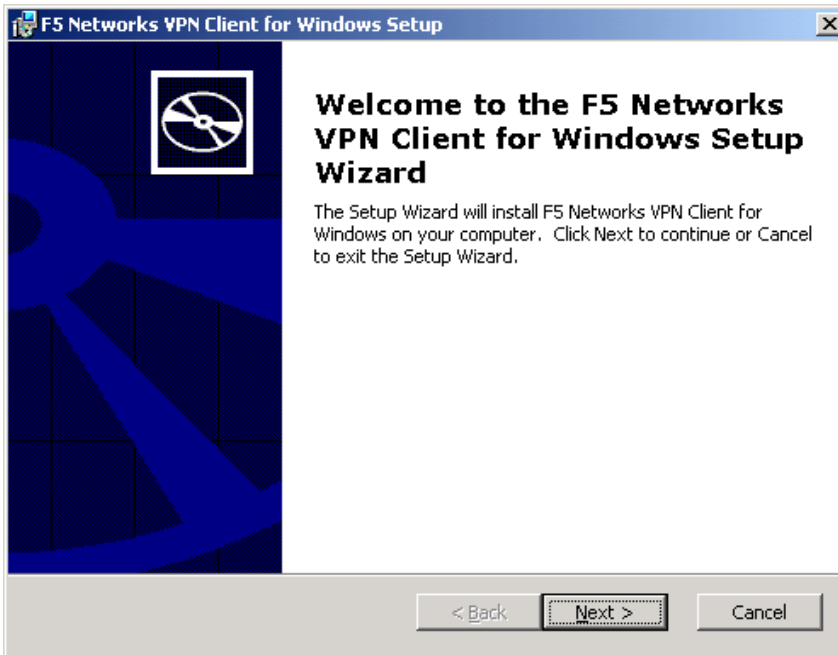

Assent.remotesupport@sungard.com or call our Support Desk (201) 356 – 1423

Step 3: Click Run when prompted:

Note: (Dependent upon the version of Windows you are running, you might be prompted two or three times to hit run)

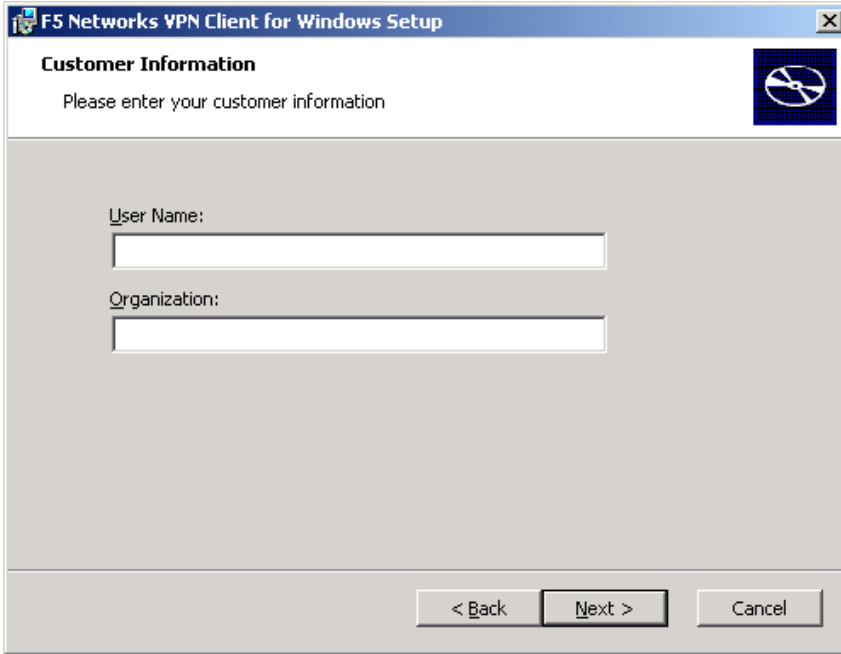

Step 4: Click “Next” on the “F5 Networks VPN Client for Windows Setup” screen:

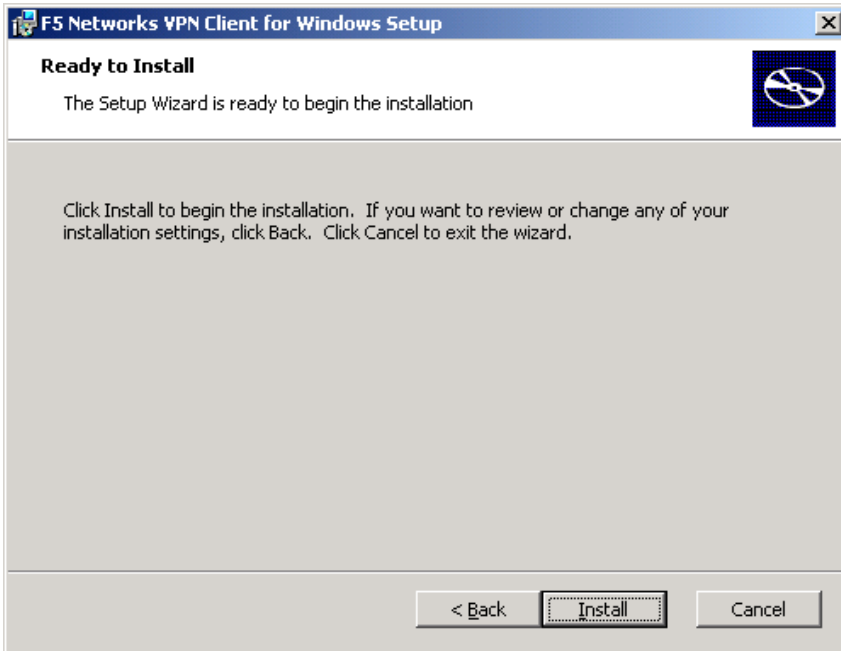

For technical assistance, you may e-mail the Assent Remote Trader Support Group at:

Assent.remotesupport@sungard.com or call our Support Desk (201) 356 – 1423

Step 5: Enter User Name (your name) and Organization name (if you are part of one, otherwise simply type in Assent Remote Trading):

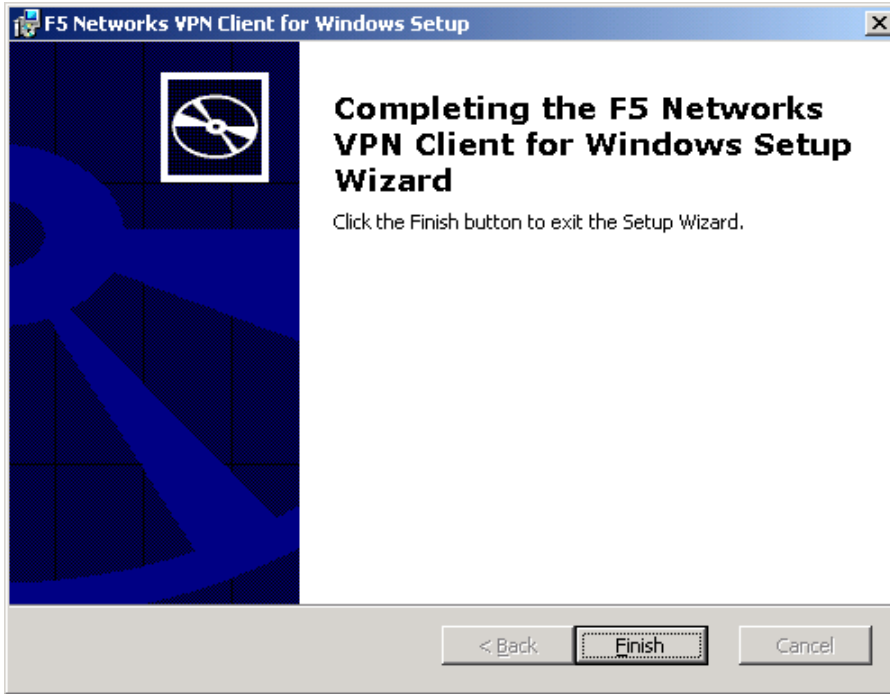

Step 6: Click "Install", as per below:

For technical assistance, you may e-mail the Assent Remote Trader Support Group at:

Assent.remotesupport@sungard.com or call our Support Desk (201) 356 – 1423

Step 7: Click “Finish”

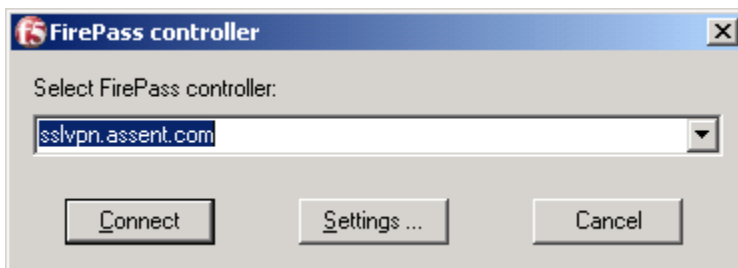

The set up wizard will automatically place a shortcut for this application on your desktop.

Step 8: Once the installation is complete, double-click on this shortcut, for F5 Networks VPN Client as shown below:

Step 9: When the F5 VPN Client starts you will see 2 windows. Click “Connect” on the “FirePass controller” window:

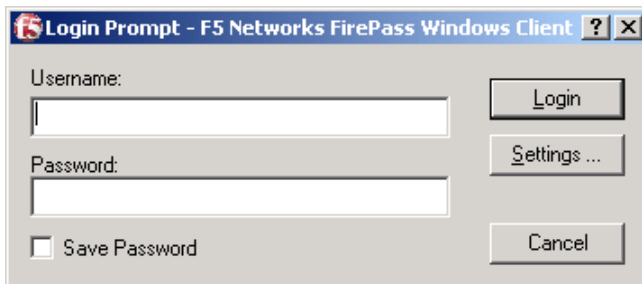

For technical assistance, you may e-mail the Assent Remote Trader Support Group at:

Assent.remotesupport@sungard.com or call our Support Desk (201) 356 – 1423

Step 10: When you receive the “Security Alert” click “Yes”

Step 11: During this next step, you will be prompted for your Username and Password at the “Login Prompt”. Here is where you will enter your Assent issued RAM username and the password you requested on your Assent Remote Logon Application:

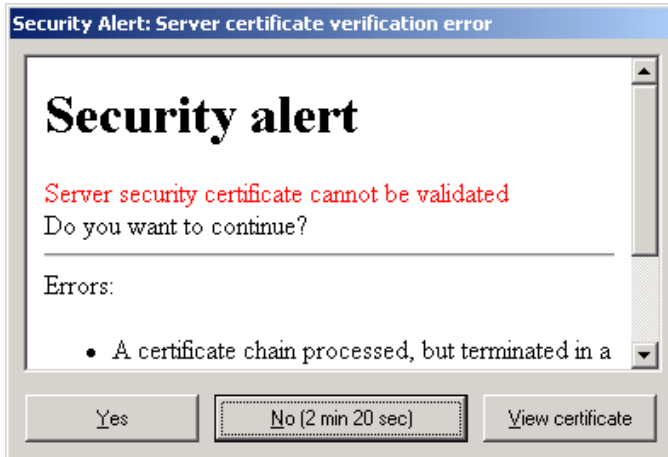

Step 12: When you receive the “F5 Networks VPN Security Warning” click “Install”:

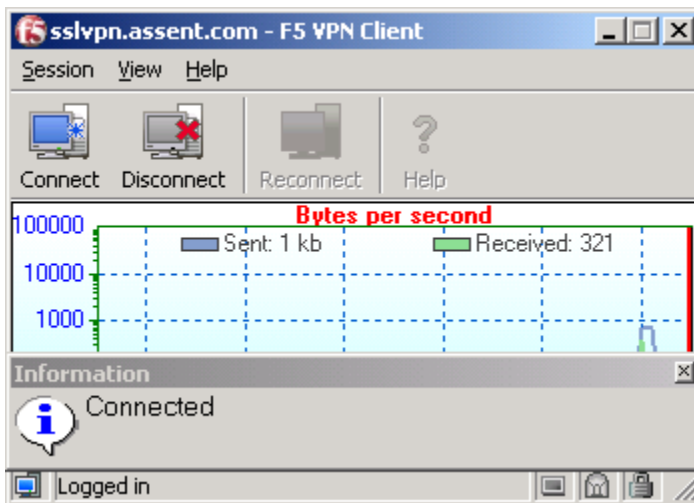

For technical assistance, you may e-mail the Assent Remote Trader Support Group at:

Assent.remotesupport@sungard.com or call our Support Desk (201) 356 – 1423

Step 13: Click “Yes” on the Security Alert window:

Step 14: Upon successful log in, you will then see a pop-up message within the F5 VPN Client window saying “connected” as shown below:

Step 15: You are now connected to the F5 VPN Client. Please leave the F5 Client window running and then follow the normal process to establish a log on session to the Anvil trading platform.

For technical assistance, you may e-mail the Assent Remote Trader Support Group at:
